

Location of the planned project

**Location: Feuerbach Station,
Wiener Platz**

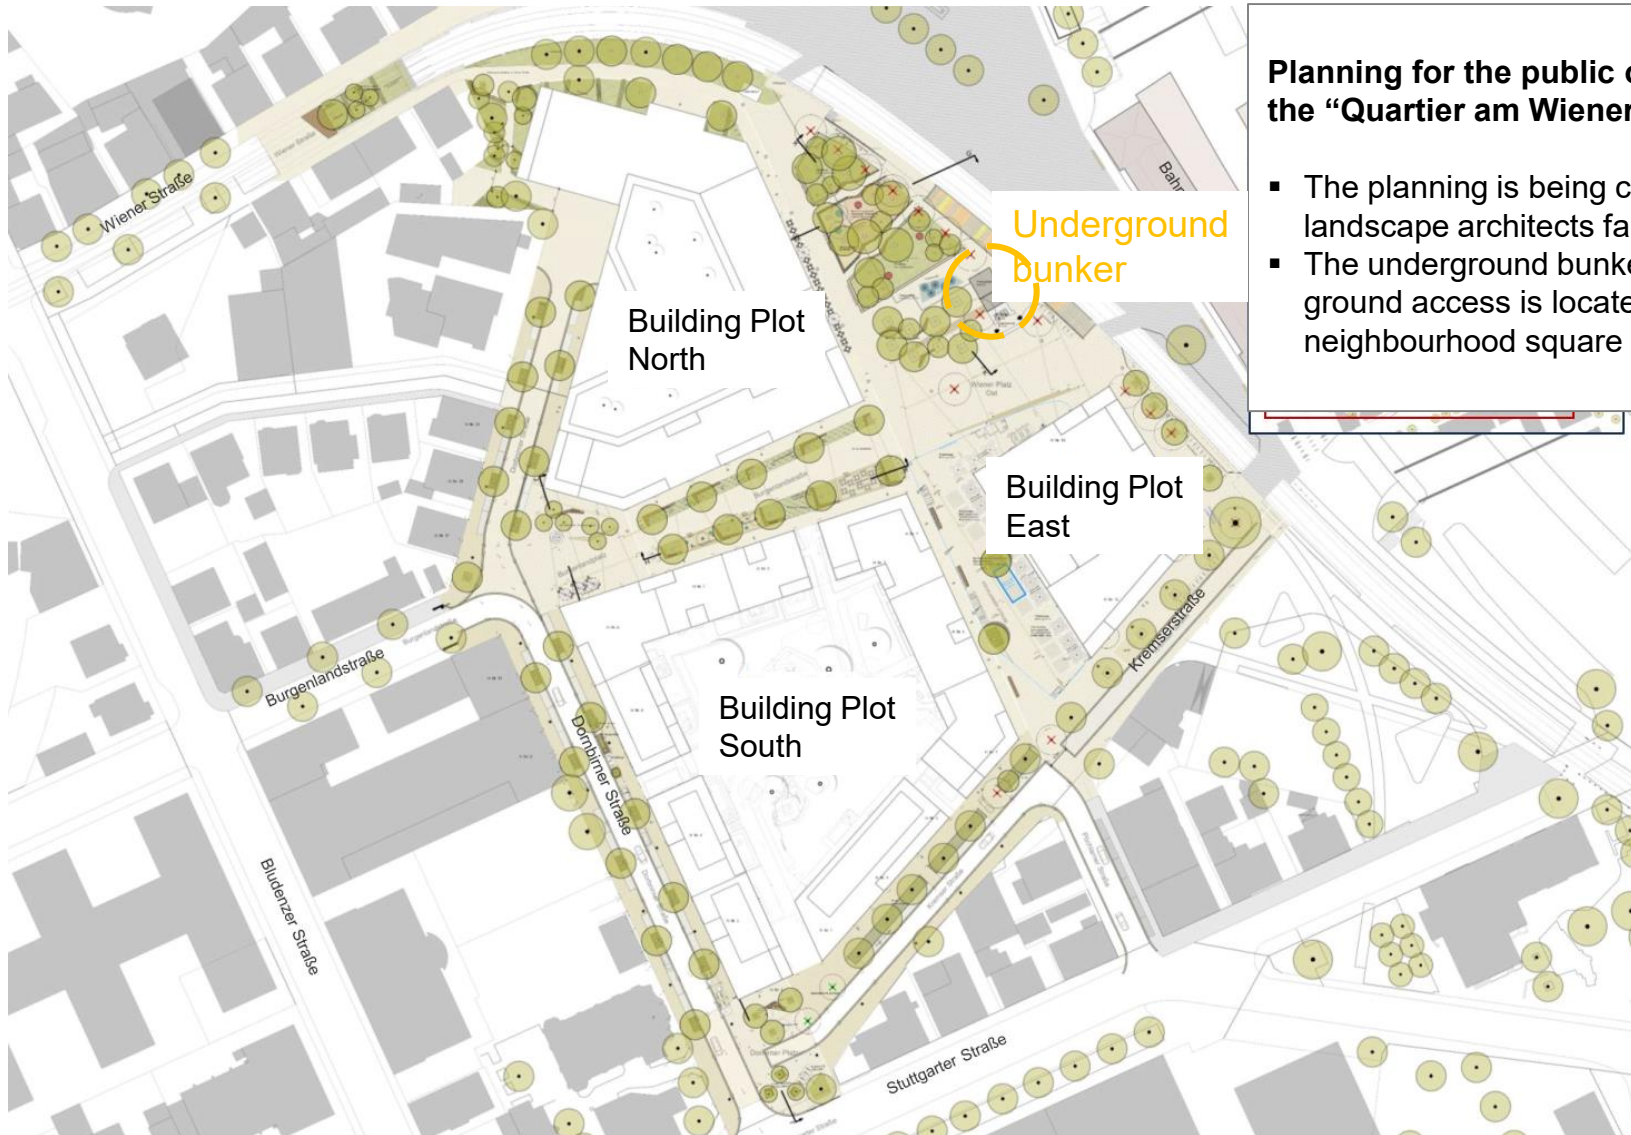

In future the western “Wiener Platz” (station forecourt), together with the eastern “Wiener Platz” (new public open space) will form the common neighbourhood square “Wiener Platz” for the new “Quartier am Wiener Platz”.

**Direction:
Feuerbach
District
Town Hall**

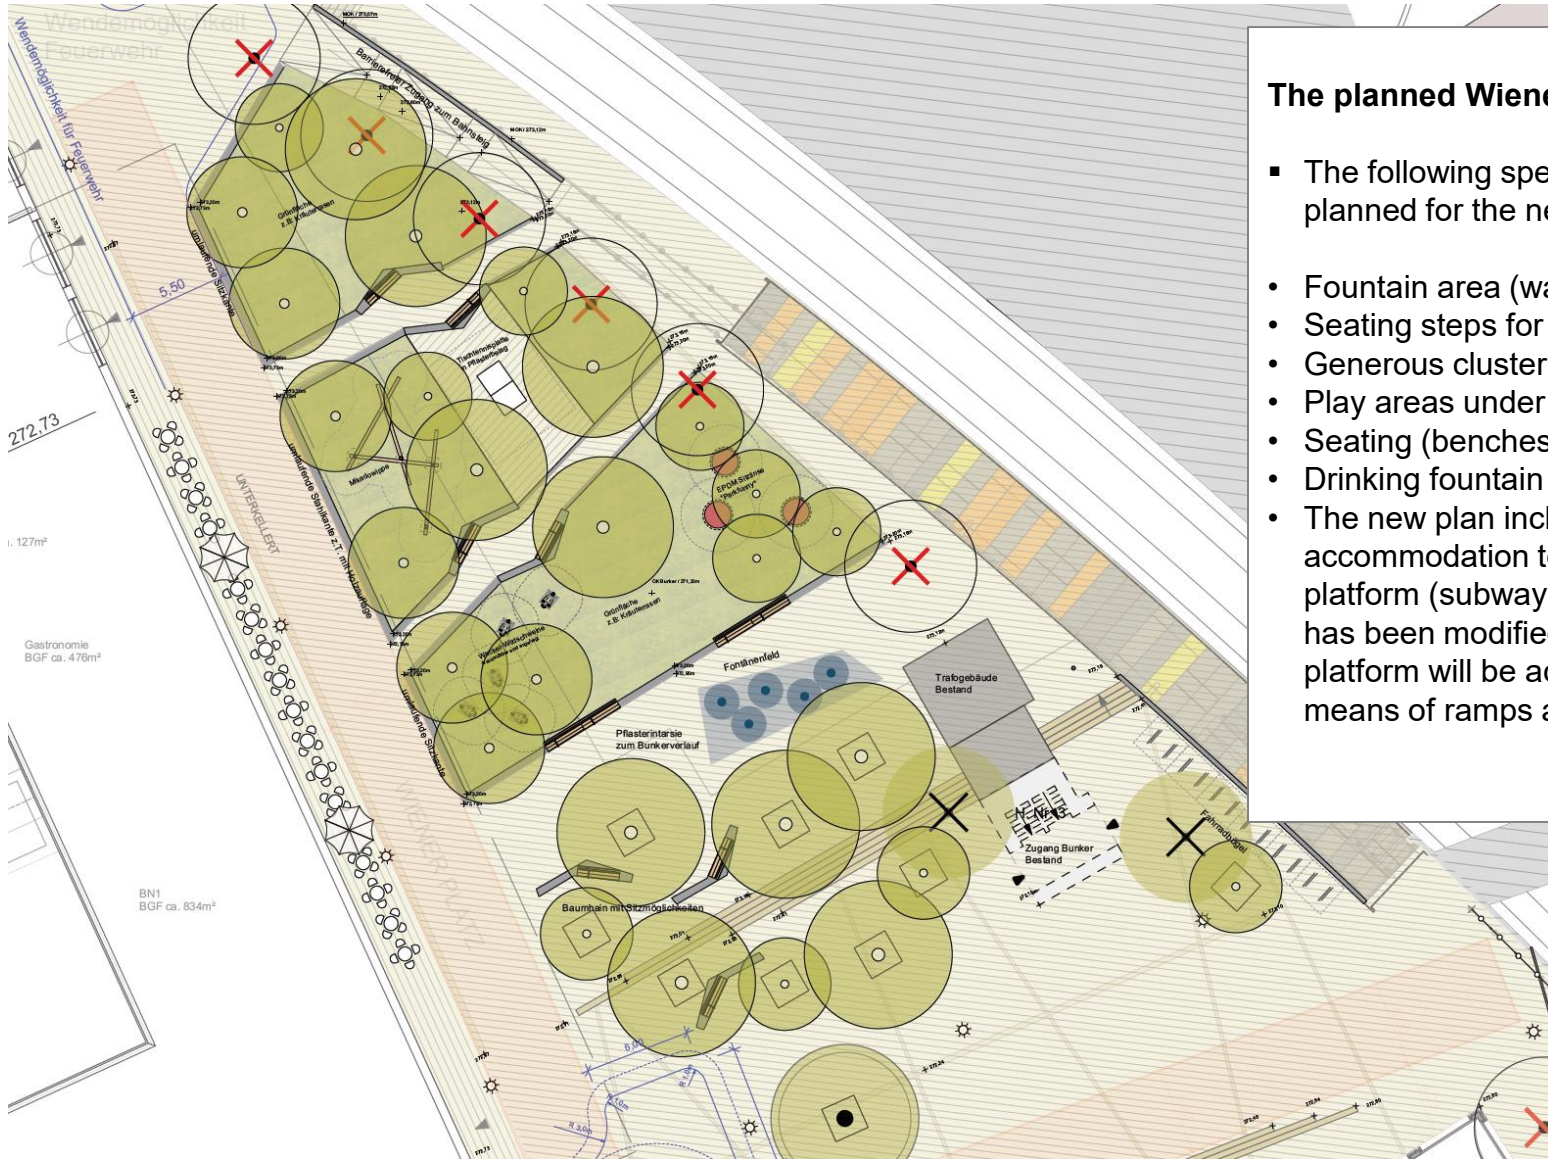

“Quartier am Wiener Platz”

- Under construction since the end of 2022
- Planned completion of the entire quarter ca. 2030
- Divided into three building plots
- The underground bunker is located under the future neighbourhood square “Wiener Platz”.
- The entrance to the underground bunker is situated above-ground in a building next to the subway station platform

Planning for the public open spaces in the “Quartier am Wiener Platz”

- The planning is being conducted by the landscape architects faktorgruen
- The underground bunker with its above-ground access is located on the central neighbourhood square

The planned Wiener Platz

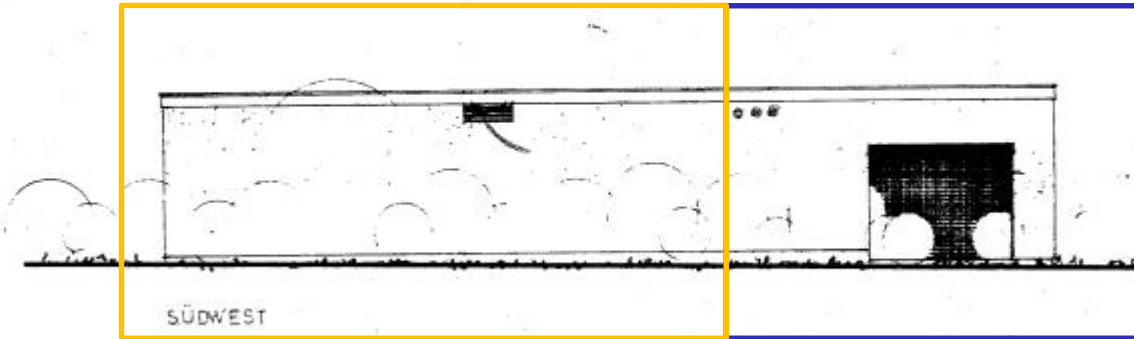

- The following special features are planned for the neighbourhood square:
 - Fountain area (water feature)
 - Seating steps for transit or sojourning
 - Generous cluster of trees
 - Play areas under the cluster of trees
 - Seating (benches and sitting stones)
 - Drinking fountain
 - The new plan includes an accommodation to the height of the platform (subway). To this end the terrain has been modified. The square and the platform will be accessible to all by means of ramps and steps.

The underground bunker on Wiener Platz

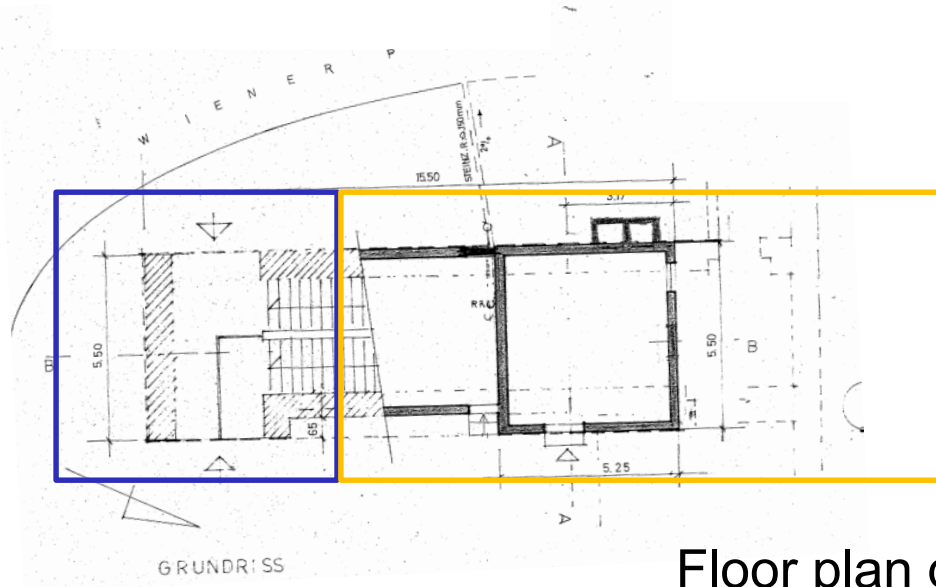

- The above-ground access building is located next to the subway station “Feuerbach Bahnhof”
- The underground bunker and the above-ground access building are municipal buildings and are listed
- The underground bunker is used by the association Schutzbauten Stuttgart e.V. as a historical museum (with a focus on World War II and the Cold War). The association designs the exhibitions and organises guided tours and events at regular intervals

The underground bunker on Wiener Platz

- Approximate usage area of the underground bunker museum / transformer station area (electricity supply for the neighbourhood)
- A transformer station has already been built in another location. The space occupied by the transformer station will become available in ca. 2029.

Floor plan ground floor

The above-ground access building for the underground bunker on Wiener Platz
